

To the co coordinator

- 1) More stringent regulations for developers before they can do developments, implement more sizeable green corridors for wildlife and no council be able to down grade these areas.
- (2) Plant more mature native trees, not the sparse sick saplings these developers do.
- (3) Have you liaised with groups like Deborah Tabart from the Australian Koala Foundation and smaller community groups, as they are the ones seeing the decimation first hand.
- (4) Less wastage of rate payer and tax payer dollars, this could go to this cause.

Kind Regards,

Keryn Upton

WE WENT TO THE NSW KOALA STRATEGY INFORMATION SESSION - PORT MACQUARIE  
ON THURSDAY 9.2.17, WE TRIED TO USE YOUR EMAIL ADDRESS BUT OUR EMAIL JUST  
BOUNCED BACK. PLEASE LET ME KNOW WHEN YOU RECEIUE MY LETTER.
