I believe as a wildlife carer with Sydney Wildlife and founding member of Wildlife Roadkill Prevention Assn that there needs to be a concerted campaign to prevent roadkill of koalas across NSW. Firstly floppytop fauna fencing alongside main roads/highways where koalas are known to live eg Blue Mtns, Mcarthur region, Hunter Region, Port Macquarrie Hastings district. The ideal solution would be building of fauna overpasses, such as the one on the northernPacific Highway but more need to be built where ever major roadworks are near or through koala habitats. If we do not take koala roadkill seriously we will continue to see many more koalas killed on our roads.
