**Please add your comments here:**

I would like to see the Koala Colony that is situated along the Appin Road between Campbelltown and Appin village developed as a Koala Sanctuary where vets can take care of the health of the population and families can have picnics under the eucalyptus trees and view the Koalas in their natural habitat. Note ..This has been suggested to Campbelltown Council many times but they do not have the foresight of developing it as a tourist attraction and are not interested in throwing any money at it. I do not see any sense in allowing this land to be sold to developers and have them knock down the trees to build houses when Koalas already live there, nor do I see any sense in Campbelltown residents being required to travel 50 or more miles to the Central Coast to see Koalas which is ludicrous. The situation is now urgent as there are plans afoot to knock down this Koala Habitat and it should be stopped right now.
