To the Koala Strategy Group, Thank you, for this development program. I currently have half of my property in Coffs Harbour Hinterland under 'Wildlife refuge:. We used to have Koalas here 20 yrs ago, but I have not seen any lately. We have had many Goanna's here but they are not present this yr either. There are wild dogs, foxes and cats in our area. I would love to see the Koalas return. I would be interested in the buying up of the habitat corridors. As it pertains to about 6 acres of the 16 I own. Currently I believe the biggest threat to Koalas is the Camphor Laurel tree, which we have funding for and are removing. Yet other properties are not so lucky. Please feel free to come and take a look at the area. Regards Susan M. Kerridge
