We have 4-5 koalas in our trees near our house on our farm on Wightman rd near Emerald Hill NSW. Each year they breed & usually the females will stay & younger males moving on to different area. We have planted over 1200 trees to encourage connectivity. We ensure water availability through hot summers. It is concerning to have mining being allowed to destroy their habitat, Maules Creek at Boggabri is so close & yet NSW gov continues to allow mining to expand in this region & now they want to allow coal seam gas into our area, again destroying our valuable koala breeding grounds.

Your name / name of organisation:

Scott & Jo McCalman
