

Exemption Details

Date of Issue:	7/6/93
Date of Expiry:	1/1/00
Issued by:	Hon. Chris Hartcher, MP Minister for the Environment
Issued to:	Broken Hill Proprietary Company Limited
Premises:	Newcastle Steelworks
Exemption relating to:	Concentration of hydrogen sulfide in emissions from the Number Five Blast Furnace slag granulator stack
Exemption from:	Section 128 of the Protection of the Environment Operations Act 1997 (formerly section 15(1) of the Clean Air Act) and clause 7 of the Clean Air (Plant and Equipment) Regulation 1997
Conditions of the Exemption:	

The exemption was extended on 18 December 1997 subject to the following condition.

If the company elects to operate the number three blast furnace slag granulator beyond 31 December 1999, the company must submit to the Environment Protection Authority before 1 June 1999 a report stating either the exact date on which the furnace will cease operating or details of control equipment to be installed to ensure that emissions comply with the Clean Air Regulations by 31 December 1999.
