

submitted the survey 'Questionnaire' with the responses below.

What works well in the proposed policy for managing flying-foxes?

No Answer

What could be improved?

The bats need to be totally removed from the area near the high school

From your experience are there other things that could be included?

No Answer

Any other comments?

I find this situation ridiculous where bats are put ahead of students. This is my third child through Maclean high school and I can't believe it takes this long to get something done about it.
