

# Introduction to energy management

## Learn how to reduce your organisation's energy costs

The cost of energy and the efficiency of its use have become major factors in operating any business. As the cost of doing business continues to climb, energy efficiency is a simple and effective way to improve your organisation's productivity and maintain competitiveness.

Sign up for this course to learn how to lower your overall energy use and create an energy action plan for your business.

## What will you learn to do?

- Understand energy basics, concepts and principles.
- Identify and implement improvements to reduce energy costs.
- Have informed conversations with suppliers offering energy management solutions.
- Put in place a practical energy action plan for your business.

**Up to  
\$3000 worth  
of post-training  
support available  
for only \$300\***

## Key topics covered

- Understand how energy is consumed in your business.
- Learn how to interpret your energy data.
- Identify energy cost savings opportunities.
- Assess your energy bills.
- Build and implement an energy management system and action plan.

## Who should attend?

- Senior management staff, environment and sustainability officers plus operations, facilities and finance managers.
- Businesses of all sizes, councils, commercial building owners and non-profit organisations.

## Course structure

OEH courses are run by industry experts providing coaching, support and an interactive learning experience.

Introduction to energy management consists of both online activities and a face-to-face workshop.

### Two online activities to complete at your own leisure (30 minutes each):

- Understand energy
- Demystify your energy bill

### Workshop (half-day):

- Identify energy cost savings
- Interpret your energy data
- Implement your energy action plan

**Subsidised course fee:** \$300 per person in Sydney and \$150 per person in regional NSW\*. An early bird discount of 25% applies if you book at least one month before the course start date.

## Post-training support

Unique to OEH energy efficiency training courses, post-training support provides one-on-one expert guidance to help you implement your energy efficiency opportunities and achieve tangible outcomes for your organisation. This gives you access to apply for **up to \$3000 worth of support for only \$300\***.

Examples of this one-on-one guidance include:

- assistance with choosing energy efficiency products that are right for your business, with help to evaluate quotes
- developing a business case for energy efficiency projects

**Limited time only:** Post-training support is available, on application, for only six months following attendance at a training course.

**Custom training:** We also offer customised in-house training. If you have a group of 10 or more, we can tailor training to your needs, and conduct the workshops at your place of business.

\* Offer subject to change without notice

## About OEH energy efficiency training programs

Since 2009, OEH has trained more than 16,000 business professionals from some of Australia's most successful companies. Our courses are designed to give NSW businesses a competitive advantage by increasing energy efficiency and energy productivity. Attendees gain the skills, knowledge and insights to implement effective energy management and best practices in their own workplace. All training courses are practical, collaborative and 'hands-on', with a clear focus on increasing energy efficiency and reducing cost.
