Stakeholder Interview Schedule

Introduction
Description of Project
Definition of the Area
Description of Process
Using Information/ Confidentiality

Scene Setting
1. What's your connection to the Gully (eg. live in the catchment; use park; beach; work there; shop/business etc). What does your connection to the Gully mean, how long have you been involved in the area? (Reminder: Collect information on group i.e. minutes/constitutions/reports etc)

Environmental Issues and Concerns in the Gully
2. In your opinion, what are the key environmental issues for the Bronte Gully area?
3. Tell us about your significant concerns for the Bronte Gully area?
4. What do you think contributes to or causes these issues?
5. Do you think that Stormwater pollution contributes to these issues?
6. How do you think it contributes to these issues? (Who or what do you think causes Stormwater pollution in the Gully?)
7. Who do you think is the ‘community of interest’ in Bronte Gully? (Who do you think has a stake in the condition of the Gully?).
8. As far you are aware, what is currently being done about stormwater pollution in the gully? (Who is involved/how are they involved/what is being carried out)
9. What do you think about the effectiveness of these?
10. How do you think this could be done differently? (Describe what, who should be involved, how they should be involved)
11. What role should the community play in this? (Describe what, who else should be involved, how they should be involved)
12. What would be different in the Gully (and within the community) if these measures were implemented?
13. Who else do you think we should talk to with regard to these issues?
