

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3151	Albury City Council	Litter and Gross Pollutant Traps for Albury Stormwater Areas	Installation of three gross pollutant traps as a component of a wider stormwater management strategy including public education and awareness to prevent pollution from Albury entering the Murray River.	\$264,000
3139	Balranald Shire Council	Urban Stormwater Quality Control System for Balranald	Undertake a series of priority works identified within the Balranald Stormwater Management Plan including pollutant traps, education campaigns and the construction of wetlands to minimise the impact of stormwater flows on the Murrumbidgee River.	\$200,000
3050	Bankstown City Council	Cleanwater Carnivale: 5 Unique Environmental Educational Games for the Community	Cleanwater Carnivale aims to allow the interaction of the wider community to develop a better understanding of the issues and provide skills to determine appropriate actions, through 5 unique education tools / games.	\$66,000
3133	Bathurst City Council	Hector Park Wetland	Project involves the restoration of a local bushland area and the construction of a wetland area to improve the quality of stormwater flowing from the Bathurst CBD to the Macquarie River.	\$220,000
3086	Bega Valley Shire Council	Bega Valley Shire Community Watercare	The project aims to increase community awareness of stormwater related issues and to increase the involvement of the community in stormwater management planning and implementation actions, through the employment of a stormwater project officer.	\$60,000
3115	Bellingen Shire Council	The Resurrection of Cemetery Creek	Project will target school children to reduce the levels of pollutants entering stormwater creeks, and rehabilitate the riverbank environment at eight sites along three creeks in the Bellingen township using Bushcare, community groups and householders.	\$48,275
3040	Blacktown City Council	"Keep the Soil on the Site" for Consultants and Developers	The project will build on the successful "Keep the Soil on the Site" Stage 2 grant to educate councils, consultants, developers and the community about stormwater issues relating to major sub-divisions developments in the South Creek Catchment.	\$180,000
3098	Blacktown City Council	Stormwater Controls for Plumpton Market Town Shopping Centre and Carpark	Education and installation of four oil and grit pollutant traps at car parks within the Blacktown Council area. The project will target three hotspots to remove litter, oils, sediments and heavy metals minimising pollutants entering South Creek.	\$480,820
3144	Blacktown City Council	Improved Performance of Stormwater Management Systems in the Blacktown Area	Project will improve the performance of an existing stormwater quality improvement pond flowing to Eastern Creek and document the outcomes of the project for take-up at other sites in NSW.	\$281,300

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3168	Bombala Council	Clean Up the Caveat Street Drain	The project will install three small gross pollutant traps, reduce erosion on local streets and work with the local community to reinforce stormwater messages to minimise the impact of the township of Bombala on the Snowy River.	\$59,095
3102	Bourke Shire Council	Bourke Stormwater Implementation Project	The project will complement a range of works being undertaken by Bourke Council, and include the installation of gross pollutant traps, and detention basin, and undertake a comprehensive stormwater education project.	\$200,000
3071	Byron Shire Council	Far North Coast Combined Councils: Industrial Areas Stormwater Auditing and Education Project	Tweed, Byron and Ballina Shire Councils will work together to conduct an audit and education campaign of all industrial areas within their boundaries to minimise emissions and discharges from these activities.	\$287,500
3081	Byron Shire Council	Belongil Creek Estuary - Installation of GPTs on Byron Industrial Estate Main Drain	The project involves the construction of a gross pollutant trap within the Byron Bay industrial estate, with a latter stage being the construction of a wetland system downstream to prevent nutrients entering the estuary.	\$230,000
3047	Camden Council	Lodges Road Gross Pollutant Traps	Installation of a two gross pollutant traps to prevent litter entering a wetland downstream. The project will include the raising community awareness and working with the local golf course to minimise the use of fertilisers impacting on the Nepean River.	\$150,000
3037	Campbelltown City Council	Upper Georges River Stormwater Management Project	The project will enhance the quality of stormwater from the suburbs of Airds and St Helens Park on the Upper Georges River through the installation of eight gross pollutant traps, revegetation of riverbanks, and community involvement and education.	\$222,500
3038	Campbelltown City Council	Redfern and Bunbury Curren Creek Catchment Stormwater Improvement Program	The project will address the pollution of Redfern Creek by removing litter from the system, preventing erosion of the stream banks and raising awareness and "community ownership" of Redfern Creek and its natural values.	\$218,300
3153	Coffs Harbour City Council	"Caring for our Creeks" Stormwater Education Strategy for Coffs Harbour's Urban Waterways	Employment of a project officer to coordinate existing educational material covering seven catchments in the Coffs Harbour Area, with particular reference to auditing and the "pet-poo" to minimise pet waste entering waterways.	\$56,220
3156	Coffs Harbour City Council	Environmental Auditing Project: Addressing the Urban Waterways of Coffs Harbour	The project will undertake industrial audits in six industrial areas in four catchments through Coffs Harbour to improve industry workplace practices and promote environmentally responsible awareness in relation to stormwater and pollution.	\$28,740

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3160	Coffs Harbour City Council	Northern Beaches Integrated Stormwater Quality Enhancement Strategy	Installation of gross pollutant traps and restoration of riverbank vegetation to prevent pollution from Coffs Harbour CBD, Sawtell and the Northern Beaches Catchments entering regionally significant wetlands and the Solitary Islands Marine Park	\$202,570
3152	Corowa Shire Council	South Corowa Stormwater Pollution Control Management Project	Installation of four gross pollutant traps and a wetland to reduce the impact of urban stormwater on the Murray River, and enhance local wildlife habitats.	\$145,000
3003	Crookwell Shire Council	Crookwell and Gunning Shires - Transforming Stormwater Attitudes	Auditing of commercial premises and assistance to improve operations and minimise the environmental impact of these operations, coupled with a community and school education program to protect the Lachlan River.	\$48,706
3030	Drummoyne Council	St Georges Crescent Catchment Oil/Grit Separator Project	Installation of an oil and grit pollutant trap to minimise the impact of runoff from Victoria Road on Sydney Harbour.	\$385,000
3031	Drummoyne Council	Barnwell Park Golf Course Stormwater Reuse Project	Construction of a sand filtration unit to treat stormwater, before storage and reuse within the local golf course. Project will include community education and training of golf course staff to reduce the use of fertilisers on the course.	\$325,000
3094	Dubbo City Council	Community Education Program: Stormwater Pollution Reduction	Preparation of a five year integrated program for stormwater quality improvement relating to education in the Dubbo area and implement the first year of the program.	\$51,150
3095	Dubbo City Council	Stormwater Education Program: Property Owners/Occupiers	Conduct an education campaign for an identified commercial hot-spot, the Cobra Street Catchment and install a gross pollutant trap to prevent gross pollutants entering the Macquarie River	\$186,900
3096	Dubbo City Council	Stormwater Education: Street Theatre	The project will involve the use of street theatre to get the message of stormwater pollution across to all members of the community, including 15 schools in the Dubbo district, shopping centres, stormwater open days and local shows.	\$50,200
3084	Dungog Shire Council	Rocla Cleansall Unit and Educational Program	Undertake community education and installation of a Cleansall Unit to reduce litter flowing into Myall Creek.	\$85,150

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3002	Eurobodalla Shire Council	Narooma CBD: Stormwater Quality Management Scheme	Education and installation to two gross pollutant traps in Narooma to prevent litter from entering Wagonga Inlet, Eurobodalla.	\$102,000
3093	Fairfield City Council	Community Stormwater Education and Training Project for the Prospect Creek Catchment	The project has four main focuses to reduce the impact of stormwater pollution in Prospect Creek, including: education of residents, auditing of industries, education of builders and training of councils operation staff.	\$200,000
3065	Gosford City Council	Woy Woy Stormwater Infiltration Project	Investigation of existing stormwater infiltration devices to prevent pollution entering the Gosford District groundwater, monitor their effectiveness and ensure the transfer of the lessons learnt to other councils in NSW.	\$160,000
3066	Gosford City Council	Use Your Brain Not the Drain - Stormwater Education Project for Small Businesses in the Gosford District	Undertake a stormwater education project targeting small businesses in the commercial sectors of Gosford, Terrigal, East Gosford, Woy Woy and Umina.	\$55,000
3067	Gosford City Council	Integrated Industrial Catchment Management Program for Narara, Erina and Kincumber Creeks	Education and installation of two oil and grit pollutant traps at industrial areas within the Gosford Council area. The project will target hotspots to remove litter, oils, sediments and heavy metals before entering beaches on the Central Coast.	\$300,000
3140	Goulburn City Council	Sediment and Gross Pollutant Traps for Constructed Wetland on Middle Arm Road	Installation of five gross pollutant traps and construct a wetland on Middle Arm Road to improve the biodiversity of the area and improve stormwater flows to Sydney's drinking supply. Comprehensive education will ensure that the works are sustainable.	\$150,000
3069	Grafton City Council	Construct Wetlands to Improve Water Quality in Urban Creeks in Grafton and South Grafton	The project will improve the water quality from the Township of Grafton by utilising wetlands to reduce pollutant loads. Further benefits will be generated by restoration of local habitat and biodiversity.	\$212,500
3131	Great Lakes Council	Installation of Litter Baskets, Stencilling of Drains, Advertisement Campaign & Employment of Stormwater Education Officer	Project involves the installation of litter baskets, employment of a stormwater education officer and kerb stencilling throughout the CBD areas of Great Lakes Council including Forster, Hawks Nest, Tea Gardens, and Tuncurry.	\$162,000
3132	Great Lakes Council	Development of Constructed Wetland in South Forster Catchment	Construction of a wetland in the South Forster Catchment to reduce the impact of nutrients on the local waterways. The wetland will be complemented by community education, water sensitive urban design and Council awareness of stormwater issues.	\$260,000

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3015	Greater Taree City Council	Greater Taree Stormwater Management Implementation Project	Install three gross pollutant traps and employ a project officer to co-ordinate community education, auditing and council training to minimise the impact of stormwater from Taree, Wingham, Cundletown, Old Bar and Harrington on the Manning River.	\$205,490
3043	Gunnedah Shire Council	Water Use and the Environment Education Program	The aim of this project is to educate as a wise a representation of the community living in the urban areas of Gunnedah Shire as to the most practicable and effective mechanisms of improving stormwater quality before it enters the Namoi River.	\$62,500
3170	Hastings Council	Building on Education in Port Macquarie Industrial Area	Installation of three oil and grit traps within industrial sites in the Hastings Council area, in Port Macquarie. The project will target hotspots to remove litter, oils, sediments and heavy metals and undertake an evaluation of the technologies.	\$600,000
3042	Hawkesbury City Council	Stormwater Pollution Reduction Program for the Auto-Service Sector in the LGAs of Hawkesbury, Penrith and Blue Mountains	Two project officers will be employed to undertake audits of auto-service industries throughout Penrith, Blue Mountains and Hawkesbury LGAs, to improve their practices and minimise the impact on the Hawkesbury Nepean River.	\$193,800
3005	Holroyd City Council	A'Becketts Creek Water Quality Pond	The construction of a boom and sediment pond, revegetation of the banks of A'Becketts Creek, coupled with water quality sampling and publicity.	\$282,000
3129	Hume Shire Council	Howlong Stormwater Management Strategy	Installation of gross pollutant traps and construction of wetlands to treat urban stormwater from Howlong and restoration of Four Mile Creek, coupled with a focused community education campaign.	\$233,000
3092	Kempsey Shire Council	Crescent Head Community Stormwater Management Plan	Undertake a range of actions to develop a community education program to manage dogs, review the usage of chemicals and car washing, install stormwater pits in Crescent Head, and review Council stormwater related operations.	\$163,500
3112	Kogarah Municipal Council	Kogarah Stormwater Awareness and Action Project: Innovative Strategies to Reduce Stormwater Pollution at the Source	Development and implementation of a community education program to raise community awareness of stormwater pollution issues and cause positive behaviour changes in the Kogarah Municipality.	\$184,000
3021	Ku-ring-gai Municipal Council	Moore's Creek Stormwater Treatment and Restoration Project	Project will install a sediment basin and gross pollutant trap, and undertake creek restoration to minimise the impact of gross pollutants, organic matter and sediments on downstream bushland and Middle Harbour.	\$165,030

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3022	Ku-ring-gai Municipal Council	Stormwater Treatment and Creek Restoration at Turramurra Memorial Oval	Undertake riverbank restoration and education combined with the installation of a gross pollutant trap, to minimise the impact of gross pollutants, organic matter and sediments on Ku-ring-gai Chase National Park.	\$226,774
3123	Lake Macquarie City Council	The Lake Macquarie Adopt a Stormwater Quality Improvement Device (SQID) Project	The project aims to increase community awareness of stormwater pollution issues, causes and solutions in the Lake Macquarie Catchment. The project will engage existing and new community based groups in the monitoring of gross pollutant traps in the City.	\$59,910
3011	Lane Cove Council	Gore Creek Stormwater Improvement Works	The project includes modification to Gore Creek to reduce erosion and the rehabilitation of a wetland. The community will be involved through education, local residents groups and Bushcare volunteers.	\$78,000
3016	Leichhardt Municipal Council	Recruitment and Commitment to Stormwater Protection - Leichhardt Local Industry Project	Work with local industries and cooperation with local Waste Board program to improve environmental practices. Project will include a Stormwater Week of education, vehicle washing promotion, and adopt a drain program.	\$94,000
3017	Leichhardt Municipal Council	Whites Creek Wetland Project	Construct a wetland system incorporating a gross pollutant trap, sediment trap, wetland and restoration of White's Creek to a natural form. Friends of the Earth propose to establish an environmental education centre in the local park.	\$244,500
3141	Maclean Shire Council	Clarence Catchment "Stormwater Ambassadors"	Project aims to promote behavioural change in school communities to reduce adverse water quality in the Clarence Valley from stormwater runoff. A measurable objective will be the reduction of litter and organic material flowing to the Clarence River.	\$28,000
3142	Maclean Shire Council	Stormwater Awareness Auditing Program for Commercial and Industrial Premises in Yamba and Iluka	The project aims to improve the work practices and promote awareness among industrial and commercial businesses in the Yamba region to minimise their impact on the Clarence River Estuary.	\$33,200
3076	Maitland City Council	One Mile Creek Rehabilitation Plan - Stage One	The first stage of this project will construct a gross pollutant trap along One Mile Creek, to reduce sedimentation and floating litter entering the Tenambit wetlands.	\$63,550
3068	Manly Council	Stormwater Pollution Prevention in Balgowlah Industrial Estate "Water You Do'in"	Undertake an audit of the Balgowlah industrial estate and conduct surveys to determine the impact of stormwater pollutants on Burnt Bridge Creek.	\$150,000

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3118	Marrickville Council	Streets to Rivers Phase III	Install three gross pollutant traps on the stormwater drains flowing to the Cooks River and conduct an education campaign targeting residential and commercial areas, non-English speaking groups, and monitor the effectiveness of the program.	\$690,800
3162	Moree Plains Shire Council	Installation of a GPT at Spillsbury Park Drainage Outlet in Moree Combined with a Community Education Program	The project will combine the installation of two gross pollutant traps, community education and review of Council policies to minimise the impact of stormwater pollution on the Mehi River from the township of Moree.	\$240,000
3116	Mosman Municipal Council	Urban Stormwater Pollution Prevention Project: Little Sirius Cove	Install two CDS gross pollutant traps on the stormwater drains flowing to Little Sirius Cove and conduct an education campaign including drain stencilling, permanent display, fact sheets, and project information.	\$224,250
3117	Mosman Municipal Council	Urban Stormwater Pollution Prevention Project: Quakers Hat Bay	Install two CDS gross pollutant traps on the stormwater drains flowing to Quakers Hat Bay and conduct an education campaign including drain stencilling, permanent display, fact sheets, and project information.	\$307,250
3062	Mulwaree Shire Council	Stormwater Treatment at Two Locations in Mulwaree Shire	Installation of Cleansall gross pollutant traps in the village areas of Marulan and Taralga to prevent litter entering the Wollondilly River.	\$160,225
3085	Nambucca Shire Council	Education Program	The project aims to address stormwater education issues identified within the Stormwater Management Plan, through community education to target sediments and nutrients combined with local industrial education and audits.	\$30,000
3009	Narrabri Shire Council	Narrabri Shire Council: Stormwater Education Program	Conduct a community stormwater education campaign through Narrabri, Wee Waa and Boggabri with water quality monitoring to ascertain the effectiveness of the program, to minimise the impact of urban stormwater on the Namor River.	\$27,500
3091	National Parks and Wildlife Service	Installation of Structural Source Controls to Reduce Sediment Entering Lane Cove River	Project will involve construction of a sediment basin, creek stabilisation and the installation of a gross pollutant trap, coupled with community involvement to minimise the impact of urban stormwater flowing from Wahroonga to Lane Cove National Park.	\$65,060
3173	Newcastle City Council	"Nobby's - Where the Source Meets the Sea"	The project will address gross pollutants, oils and nutrient contamination impacting on Newcastle Beaches through a combination of source control measures and infiltration devices.	\$107,657

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3174	Newcastle City Council	Tackling at Source Stormwater Control for Hotspots of Priority Pollutants	Project will install six pollution insert pits to prevent pollutants entering the stormwater system throughout the Newcastle District. The inserts will pilot technologies to minimise sediment and heavy metal pollution and undertake community education.	\$185,649
3137	North Sydney Council	Long Bay Stormwater Impact Minimisation Scheme	Project involves comprehensive education targeting both local residents and commercial premises, coupled with the installation of a CDS gross pollutant trap to prevent pollution entering Middle Harbour, complementing works by Willoughby Council.	\$300,000
3025	NPWS, Southern Directorate	Floodplain Restoration and Community Behavioural Change in the Ski Resorts	Undertake revegetation and rehabilitation of riverbank in Perisher and Smiggins Creek, coupled with the improved policy and management and community education.	\$63,000
3172	NPWS, Southern Directorate	Riparian Zone Rehabilitation and Community Education in Thredbo Alpine Village	The project will undertake a series of stormwater management actions including erosion control and community education to minimise the impact of urban stormwater from Thredbo Alpine Village on the Snowy Mountains.	\$50,000
3001	Oberon Council	Restoring Our River	Education, installation of a gross pollutant trap and riverbank restoration to minimise the impact of stormwater from Oberon on the Macquarie River.	\$78,080
3169	Orange City Council	Installation of a Gross Pollutant Trap (GPT) and Related Public Education Program	Project will install a gross pollutant trap on a main drainage channel in Orange which flows to the Macquarie River. Council will determine the extent and composition of the litter caught by the device to educate the community on stormwater pollution.	\$134,800
3020	Parkes Shire Council	Prevention of Gross Pollutants Entering the PAC Park Urban Waterway	Installation of a gross pollutant trap and community education to minimise the levels of litter and vegetation entering the PAC Park waterway from the township of Parkes.	\$59,000
3052	Parramatta City Council	Involving and Educating the Other Half - Ethnic Communities Education Program, Upper Parramatta River Catchment	The project will employ a catchment officer and develop education materials to educate and involve Non-English Speaking Background peoples in protecting the Upper Parramatta River.	\$148,000
3122	Penrith City Council	Stormwater Improvement and Management Project - Werrington Creek	Construct a gross pollutant trap in Werrington Creek, modify and upgrade an existing sediment trap and undertake rehabilitation of the creek downstream of a wetland.	\$150,000

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3046	Pittwater Council	To Determine the Effectiveness of Street Sweeping as a Means of Controlling Urban Stormwater Pollution	Investigation into the effectiveness of street sweeping and the development of a control policy. The project will look to introduce the policy to councils throughout NSW.	\$100,000
3108	Pittwater Council	Noreen Creek Restoration and Stormwater Mitigation	Council will construct a gross pollutant trap, undertake bank stabilisation and restore an existing wetland in the Noreen Creek Catchment, which flows to Narrabeen Lagoon.	\$130,000
3109	Pittwater Council	Community Education and Cooperative Catchment Management	Implement community education and involvement initiatives including a resource guide, demonstration sites and displays in the Wirreanda Catchment and develop a model for cooperative management involving the local residents.	\$54,492
3089	Port Stephens Council	Installation of Stormwater Treatment Devices, Litter Baskets and Education Campaign Within Nelson Bay CBD Catchment	The project involves the installation of a number of stormwater treatment devices within the catchment and community education program to raise the levels of community awareness and knowledge of stormwater, focussing on an industrial area.	\$242,000
3150	Queanbeyan City Council	Karabar Sub-Catchment Stormwater Runoff Clean Up	Installation of a gross pollutant trap to prevent pollutants from a shopping centre in Queanbeyan entering the Murrumbidgee River. The project will involve the community in assessing the amount of pollution captured.	\$103,100
3008	Richmond Valley Council	North Casino Wetland Improvements	Installation of a gross pollutant trap and upgrading the efficiency of a wetland to capture pollutants from the Casino urban area, before they enter an environmentally sensitive wetland downstream in the Richmond River.	\$71,600
3105	Richmond Valley Council	Oak Street - Evans Head Reserve Stormwater Treatment	Reduction of pollutants entering the Evans River through the construction of a gross pollutant trap and source control works through the assessment and education of different land users in the catchment.	\$92,500
3018	Rockdale City Council	Lower Georges River Stormwater Action Project - Community Education and Source Control	Stormwater education program aimed at improving stormwater management practices of the local community and the installation of six stormwater treatment devices at hot spots in the Lower Georges River Catchment.	\$200,000
3019	Rockdale City Council	Bardwell Creek Pollutant Traps	Installation of two CDS gross pollutant traps in Bardwell Creek to minimise the level of litter and other pollutants entering the local waterways.	\$216,000

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3032	Ryde City Council	Water Quality Improvements in River Flat Area of Field of Mars Reserve	Installation of a gross pollutant trap, reconstruction of a natural waterway and rehabilitation of an existing wetland and riverbank vegetation to restore water quality within Buffalo Creek, at the Field of Mars Reserve.	\$130,000
3034	Ryde City Council	Eastwood at Source Pollution Control and Community Education Program	Education and installation of three oil and grit traps at car parks within the Ryde Council area. The project will target three hotspots to remove litter, oils, sediments and heavy metals, preventing the pollutants from entering Lane Cove River.	\$157,640
3035	Ryde City Council	Blue Gum High Forest/Rainforest Demonstration Stream	Installation of eleven stream rehabilitation structures to establish a recovery plan in Blue Gum Forest and Creek, in the Lane Cove River. The restored creek will incorporate stability works to look and function like a natural stream.	\$79,850
3128	Shoalhaven City Council	St Georges Basin Stormwater Action Program	The project will install gross pollutant traps, undertake stabilisation works and community education to complement a range of other drainage stabilisation works recently completed by Council.	\$278,800
3064	Sutherland Shire Council	Sutherland Shire Carpark Treatment	Education and installation of four oil and grit pollutant traps at car parks within the Sutherland Council area. The project will target three hotspots to remove litter, oils, sediments and heavy metals minimising pollutants entering the Woronora River.	\$238,481
3088	Tallaganda Shire Council	Educating the Public on Stormwater Solutions	Braidwood will develop a community stormwater education campaign targeted at both the local community and through traffic between Canberra and the Shoalhaven. The education will be complemented by the construction of three small gross pollutant traps.	\$51,375
3127	Tamworth City Council	Timbumburi Creek and Coledale Gross Pollutant Management Program	Project aims to reduce the quantities of gross pollutants being deposited along Timbumburi Creek through the installation of a gross pollutant trap and the restoration of a local creek to minimise erosion. The works will be complemented by education.	\$135,816
3027	The City of Sydney	Clean Harbour Partners Program	Develop a comprehensive education program for the Sydney CBD through the establishment of effective partnerships. The project aims to increase the levels of awareness of the link between rubbish in gutters and the quality of water in Sydney Harbour.	\$150,000
3013	The Council of the City of Botany Bay	Botany Bay Stormwater Action Project	Conduct a pilot Stormwater Action Project in the industrial area of Botany Bay. The project will involve industry auditing and education, integration of Council operations, and evaluation to assess the effectiveness of the program.	\$200,000

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3010	The Council of the Municipality of Hunters Hill	Boronia Park Reserve Stream and Melaleuca Wetland Rehabilitation at Brickmakers Creek	Improve stormwater quality entering Lane Cove River through the construction of two detention basins, and recreation and restoration of a regionally significant bushland in Boronia Park, Hunters Hill.	\$60,500
3087	The Council of the Shire of Hornsby	SAM's Smart Catchment Education Program	Develop a program of stormwater education utilising a stormwater activity trailer along with education resources for a range of interest groups. Two project officers will promote and advertise the trailer for presentations to groups around Sydney.	\$50,000
3103	The Council of the Shire of Hornsby	Water Quality Remediation and Education Project for the Hastings Rd Recreation Park, Cherrybrook	The project will involve the remediation of a degraded stream with bank stabilisation, construction of a sedimentation pond and wetland system. The works will be complemented by a stormwater awareness campaign for the local community.	\$172,000
3138	The Council of the Shire of Wakool	Gross Pollutant Traps for Moulamein and Tooleybuc	The project will install two pollutant traps in both Tooleybuc and Moulamein to reduce pollutant loads entering the Edward River.	\$64,000
3149	Tumbarumba Shire Council	Stream Bank Improvement and Reinstatement of Riparian Vegetation on the Tumbarumba Creek	Project will revegetate a degraded area on the Murray River to minimise the export of stormwater pollutants from the Tumbarumba.	\$56,950
3164	Tumut Shire Council	Tumut Shire Stormwater Education and Creek Remediation	The project will undertake training of Council staff, education of the community and restoration of a local creek to minimise the impact of urban stormwater from Tumut on the Murrumbidgee River.	\$39,100
3075	Tweed Shire Council	Lavender Creek, Murwillumbah: Stormwater Treatment and Rehabilitation	The project will include the placement of several small trash racks, two sedimentation basins and an improved wetland system to provide a treatment train approach to managing pollutants in urban stormwater into Lavender Creek.	\$400,000
3012	Wagga Wagga City Council	Marshalls Creek Environmental Rehabilitation	Undertake a range of options including the construction of a wetland, riverbank restoration and community involvement to rehabilitate Marshalls Creek, Wagga Wagga.	\$251,000
3063	Walcha Council	Blairs Gully Project	The project will include the Walcha community in activities to establish Blairs Gully as a central focus for stormwater awareness and education by creating a wetland to enhance local wildlife areas.	\$151,760

STORMWATER TRUST STAGE 3 GRANTS

Grant No	Organisation	Project Title	Description	Grant offer of up to
3004	Warren Shire Council	In Pit Gross Pollutant Nets	Installation of seven gross pollutant traps to capture pollutants emanating from the township of Warren, before discharge to the Macquarie River.	\$25,000
3014	Warringah Council	Living Waters - Living Community	The establishment and empowering of local "Eco-teams" to develop a community environmental education campaign. The "Eco-teams" will build on community relationships in the area to actively minimise the impact of stormwater on the Northern Beaches Lagoons.	\$150,000
3026	Waterways Authority	Installation of a GPT and Other Devices for Rubbish and Sediment Control in Blackwattle Bay, Sydney	Install a gross pollutant trap and two litter booms to prevent litter and other pollutants entering Blackwattle Bay at the Fish Markets.	\$500,000
3036	Waverley Council	Enhanced Stormwater Management in Bronte Gully Through Local Community Participation	The project will facilitate, investigate and evaluate the effectiveness of a community based participatory process to develop self-implementing and sustainable solutions to improve stormwater quality within the highly urbanised catchment of Bronte.	\$285,850
3006	Wellington Council	Wellington Stormwater Management Plan: Implementation of works and strategies.	Undertake a range of options including the installation of gross pollutant traps, riverbank restoration and rehabilitation, minimise erosion and community involvement to minimise the impact of stormwater from Wellington township on the Macquarie River.	\$329,000
3044	Willoughby City Council	Long Bay Catchment Pollution Control Measures, Structural and Source Control	Undertake and audit / education program of the industrial premises in Artarmon, coupled with riverbank restoration and the installation of two gross pollutant traps to develop an integrated stormwater management project.	\$317,000
3126	Wollongong City Council	Remediation and Revegetation of Riparian Buffer Strips in Two Catchments in the Illawarra	The project will address the remediation and restoration of riverbank corridors that have been degraded from urban stormwater pollution. The results of the program will feedback into Council's planning process to limit further degradation.	\$550,000
3023	Yallaroi Shire Council	Prevention of Stormwater Pollution in Warialda Reedy Creek within Warialda Town Limits	Undertake a series of works including revegetation, community education, install grass swales and pollution traps to minimise the impact of stormwater pollution from Warialda on the local waterways.	\$115,000
3167	Yass Shire Council	Integrated Stormwater Management in Yass	The integrated project will conduct a community education and consultation program, revise Council stormwater related practices and construct a wetland to minimise the impact of Yass on the Murrumbidgee River.	\$92,000

STORMWATER TRUST STAGE 3 GRANTS
