Preface

The Code of Practice for Keeping Native Birds (the Code) is:

- Approved as a code of practice under the *Biodiversity Conservation Act 2016* for keeping the species of lower risk native birds listed in the Schedule to this Code.
- Incorporated as a condition of a licence granted under the *Biodiversity Conservation Act* 2016 for the keeping of species of higher risk native birds for which a keeper licence is required.

The species of native birds that may only be kept by a licensed keeper, are listed in the NSW Native Animal Keepers' Species List published on the Office of Environment and Heritage (OEH) website.

The Code contains both mandatory standards and supporting advisory guidelines for the care of pet native birds.

Failure to comply with the Code means a person may not have a defence to offences under Division 1 of Part 2 of the *Biodiversity Conservation Act 2016* and may result in a Penalty Notice being issued or the commencement of a prosecution.

Compliance with this Code does not remove the need to comply with the requirements of the *Prevention of Cruelty to Animals Act 1979* (POCTA Act) and any other laws and regulations, such as the *Local Government Act 1993*.

Keepers should be aware that:

- They must follow the standards in the Code, unless advised by a veterinarian that a
 native bird should be housed or managed in a different way to treat a particular problem

 keepers who follow such advice will not be considered to be in breach of the Code.
- Native birds held under a licence for public exhibition, rehabilitation, education, conservation or scientific purposes are not subject to the Code.
- All native birds are protected under NSW law. It is an offence under Division 1 of Part 2 of the *Biodiversity Conservation Act 2016* to harm, injure, buy, sell, possess, import, export, remove from the wild or release into the wild a native bird unless authorised by a licence or a code of practice.
- The importation of birds from overseas for inclusion in private collections is prohibited under Commonwealth law. The possession of illegally imported birds, or their offspring, is an offence under the *Environmental Protection and Biodiversity Conservation Act 1999*.

This Code incorporates the NSW Animal Welfare Code of Practice No 4 – Keeping and Trading of Birds, which is made under the *Prevention of Cruelty to Animals Act 1979*.

1. Introduction

- 1.1. This Code is an approved code of practice under the *Biodiversity Conservation Act* 2016 for the keeping of the species of native birds listed in the Schedule to this Code.
- 1.2 Compliance with this Code is also a condition of a licence granted under the *Biodiversity Conservation Act 2016* for the keeping of species of native birds for which a keeper licence is required.
- 1.3 This Code comprises both enforceable provisions and guidelines. Enforceable provisions are identified by the word 'standards' and they must be followed.

2. Interpretations and definitions

2.1 Interpretations

Objectives

The intended outcome(s) for each section of this Code.

Standards

Standards describe minimum standards that must be met. They are identified in the text by the heading 'Standards' and use the word 'must'.

Guidelines

Guidelines describe the best practice agreed at a particular time following consideration of scientific information and accumulated experience.

Notes

Where appropriate, notes describe practical procedures to achieve the minimum standards and guidelines. They may also refer to relevant legislation.

2.2 Definitions

In this Code:

- **Bird** means any native bird that may be legally kept in New South Wales under this Code or an animal keeper's licence.
- *Keeper* means the owner of the bird.
- **OEH** means the NSW Office of Environment and Heritage.

3. Acquisition and disposal

Objectives

To ensure that birds are lawfully acquired and disposed.

The standards set out below apply to birds of a species that may be kept in accordance with this Code without the need for a licence, as listed in the Schedule to this Code.

For birds that may only be kept under a licence, the licensed keeper may only acquire or dispose of birds as specified in their licence conditions.

3.1 Standards

- 3.1.1 Birds of the species listed in the Schedule to this Code, must only be acquired by:
 - persons that are at least 16 years old
 - persons under the age of 16 years, but only with the knowledge and approval of their parent or legal guardian.
- 3.1.2 Birds of the species listed in the Schedule to this Code, may be imported from, or exported to, another state or territory.
- 3.1.3 Persons must only acquire birds of species listed in the Schedule to this Code from:
 - a person in NSW over the age of 16 years, or persons under the age of 16 years, but only with the knowledge and approval of their parent or legal guardian
 - the holder of a current dealer licence issued by OEH that authorises the buying and selling of birds
 - a person from another state or territory that has lawfully acquired the bird and, if required under the laws of their state or territory, has obtained a licence to export the bird to New South Wales.
- 3.1.4 Keepers must only dispose of birds of species listed in the Schedule to this Code by giving, trading or selling the birds to:
 - a person in NSW that is over the age of 16 years, or a person in NSW that is under the age of 16 years but only with the knowledge and approval of their parent or legal guardian
 - a person in another state or territory that may lawfully acquire the bird, and if required under the laws of their state or territory, has obtained a licence to import the bird from New South Wales.
- 3.1.5 Keepers of species listed in the Schedule to this Code must only advertise the disposal or acquisition of birds in a specialist publication, journal or internet site related to the keeping of birds or native animals.
- 3.1.6 Keepers of species listed in the Schedule to this Code must not buy, sell or trade in native birds as a business.

Notes

A dealer licence issued by OEH is required to buy and sell birds as a business.

Birds of species that are not listed in the Schedule to this Code may not be imported into New South Wales or exported from New South Wales without an import or export licence issued by OEH.

Persons from other states and territories may need a keeper licence and/or an import licence issued by the environment agency in their state or territory to acquire native birds from New South Wales.

4. Record keeping

Objectives

To maintain accurate records of birds. This will provide a valuable tool in proving birds have been lawfully acquired, and identifying sources of health problems.

The standards set out below apply to birds that may be kept in accordance with this Code without the need for a licence.

For birds that may only be kept under a licence, the licensed keeper must keep records as specified in their licence conditions.

4.1 Standards

4.1.1 Keepers must retain records of the acquisition and disposal of birds of species listed in the Schedule to this Code, such as signed and dated receipts indicating the number and species of birds acquired or disposed and the name and address of the person or business from whom birds are acquired or to whom birds are disposed.

4.2 Guidelines

- 4.2.1 The keeper should keep records for each bird covering the following matters, as these can be of significant help when diagnosing health problems:
 - feeding and refusal of food
 - veterinary treatment, medication and observations on health issue (e.g. diarrhoea and regurgitation)
 - unusual behaviour.
- 4.2.2 A bird should be micro chipped by a veterinarian with relevant experience, as this enables ownership of the bird to be established. In the event of the bird being stolen or escaping, a micro-chip can be used to ensure the bird is returned to its rightful owner. Micro chipping is not recommended for juveniles and very small species.

Notes

It may be useful to record reproductive activities and changes in weight and length of the bird.

A card attached to the outside of an enclosure is a convenient way of recording information.

5. Welfare

Keepers must comply with the *NSW Animal Welfare Code of Practice No 4 – Keeping and Trading of Birds*, published by the Department of Primary Industries (DPI), and adopted by the Minister for the Environment as an approved code of practice for the purposes of the *Biodiversity Conservation Act 2016* (NSW).

This Code can be viewed on the DPI website: <u>NSW Animal Welfare Code of Practice No 4 -</u> Keeping and Trading of Birds

Schedule

This Code is approved as a code of practice under the *Biodiversity Conservation Act 2016* for the keeping of the species of native birds listed below.

Common name	Scientific name	Species group
Adelaide rosella	Platycercus elegans adelaidae	Parrot
Bar-shouldered dove	Geopelia humeralis	Pigeon & dove
Black-breasted button quail	Turnix melanogaster	Quail
Black-ringed finch	Taeniopygia bichenovii annulosa	Finch
Black-tailed finch	Poephila cincta atropygialis	Finch
Black-throated finch	Poephila cincta	Finch
Black-throated finch/long-tailed finch hybrid	Poephila cincta x acuticauda	Finch
Blue bonnet	Northiella haematogaster	Parrot
Blue-faced parrot-finch	Erythrura trichroa	Finch
Blue-winged parrot	Neophema chrysostoma	Parrot
Bourke's parrot	Neopsephotus bourkii	Parrot
Brown quail	Coturnix ypsilophora	Quail
Brush bronzewing	Phaps elegans	Pigeon & dove
Budgerigar	Melopsittacus undulatus	Parrot
Chestnut-breasted mannikin	Lonchura castaneothorax	Finch
Cloncurry parrot	Barnardius zonarius macgillivrayi	Parrot
Cloncurry/Twenty-eight parrot hybrid	Barnardius zonarius macgillivrayi x Barnardius semitorquatus	Parrot
Cockatiel	Nymphicus hollandicus	Parrot
Common bronzewing	Phaps chalcoptera	Pigeon & dove
Crested pigeon	Ocyphaps lophotes	Pigeon & dove
Crimson finch	Neochmia phaeton <u>phaeton</u>	Finch
Crimson rosella	Platycercus elegans	Parrot
Diamond dove	Geopelia cuneata	Pigeon & dove
Diamond firetail	Stagonopleura guttata	Finch
Double-barred finch	Taeniopygia bichenovii	Finch
Double-barred finch / zebra finch hybrid	Taeniopygia bichenovii x Taeniopygia guttata	Finch
Eastern rosella	Platycercus eximius	Parrot
Eastern rosella/mallee ringneck	Parrot hybrid	Parrot
Elegant parrot	Neophema elegans	Parrot
Emerald dove	Chalcophaps indica	Pigeon & dove

Common name	Scientific name	Species group
Red-rumped parrot	Psephotus haematonotus	Parrot
Regent parrot (western subspecies)	Polytelis anthopeplus <u>anthopeplus</u>	Parrot
Regent parrot/princess parrot hybrid	Polytelis anthopeplus x Polytelis alexandrae	Parrot
Regent/superb parrot	Polytelis hybrid	Parrot
Rock parrot	Neophema petrophila	Parrot
Scaly-breasted lorikeet	Trichoglossus chlorolepidotus	Parrot
Scarlet-chested parrot	Neophema splendida	Parrot
Scarlet-chested/turquoise parrot	Neophema hybrid	Parrot
Spinifex pigeon	Geophaps plumifera	Pigeon & dove
Squatter pigeon	Geophaps scripta	Pigeon & dove
Star finch	Neochmia ruficauda	Finch
Stubble quail	Coturnix pectoralis	Quail
Sulphur-crested cockatoo	Cacatua galerita	Parrot
Superb parrot	Polytelis swainsonii	Parrot
Superb parrot/ red-winged parrot hybrid	Polytelis swainsonii x Aprosmictus erythropterus	Parrot
Superb parrot/princess parrot hybrid	Polytelis swainsonii x Polytelis alexandrae	Parrot
Turquoise parrot	Neophema pulchella	Parrot
Turquoise parrot/golden- shouldered parrot hybrid	Neophema pulchella x Psephotus chrysopterygius	Parrot
Twenty-eight parrot	Barnardius zonarius semitorquatus	Parrot
Varied lorikeet	Psitteuteles versicolor	Parrot
Varied lorikeet/little lorikeet hybrid	Psitteuteles versicolor x Glossopsitta pusilla	Parrot
Western corella	Cacatua pastinator butleri	Parrot
Western rosella	Platycercus icterotis	Parrot
White-eared finch	Poephila personata leucotis	Finch
White-headed pigeon	Columba leucomela	Pigeon & dove
Yellow rosella	Platycercus elegans flaveolus	Parrot
Yellow-rumped mannikin	Lonchura flaviprymna	Finch
Zebra finch	Taeniopygia guttata	Finch
