Final Determination

Minor amendments to the lists of threatened species and ecological communities in the Schedules of the *Biodiversity Conservation Act 2016*

The NSW Threatened Species Scientific Committee, established under the *Biodiversity Conservation Act 2016* (the Act), has made a Final Determination to amend the list of species and ecological communities in Schedules 1 and 2 of the Act referred to in paragraphs (a), (b) and (c) below. Minor amendments to the Schedules are provided for by section 4.19 in Part 4 of the Act.

a) The NSW Threatened Species Scientific Committee is of the opinion that the following amendments are necessary or desirable to reflect a change in the name of a listed species or a reclassification of a listed species into further species as a result of taxonomic revision:

The references cited contain the reasons for these amendments in the Schedules.
