A as Koala carer these are the things that need to happen to get Koala numbers back up. Stop any further logging in state forests and private land in this region, and make more of the state forests into National Park areas so they have room in the future to expand ( no point increasing numbers if they have no where to go or live) Educate residents in areas where dog attacks are an issue on checking yards before letting dogs out and keeping dogs on leads, or having no dog policy's on new housing areas near bush land. Have a NSW protocol for data collecting . id and treatment of koalas in care. Fund costs carers pay in order to treat these guys maybe by helping Coffs harbour animal rescue trust with their vision of a wildlife hospital in Coffs Harbour like many other areas with koalas have. More koala tree planting on private and public land. Better signs and more of the Koala road signs to alert drivers. More public education on risks to koalas in their area and how people can help.

**Your name / name of organisation:**

Zaiga Deist , Koala Coordinator for Wires Mid North Coast area

**Postcode**

2450

**Or, upload your comments or further information**
