

Appendix 2

Denaturing Specifications for Sensitive Species records*

(current as of November 2011)

- Category 1 - no records provided
- Category 2 - records denatured to 0.1° (approximately ten kilometres) for public web applications
- records denatured to 0.01° (approximately one kilometre) for provision to licensed clients
- Category 3 - records denatured to 0.01° (approximately one kilometre) for public web applications
- records provided at 'as held' accuracy to licensed clients

* Denaturing specifications may be subject to change for example, if best practice guidelines change.
