

S00047 – Glen Peacock

I am writing about the new proposed license for dealing or selling reptiles online.

There are a couple of concerns, such as will there be an annual fee? and how much will it be?

I am in favor of a code of practice being followed by breeders (online sellers) being run as a business. but i am not in favor of having to do all the extra paper work such as developing procedures for cleaning and feeding etc.

My reasoning being, all larger breeders get good at what they are doing because they are already doing the right thing by there animals.

I would rather see a system put in place that, such as a \$500 to \$1000 a year fee to breed and sell online. This would weed out all the small time breeding and bad husbandry that occur.

I myself keep very high sandards and dont feel i should be punished because of other peoples low standards of husbandry. I dont support having to keep all the written procedures.

But I do support being able to operate as a home based business, which includes paying tax
