

S00056 – Janina Price

- In relation to your first proposal.

I agree to keep it as is. But I do understand that not many people like our Flying Foxes & they need all the protect that is possible.

- In relation to your second proposal.

All lower risk activities should be regulated by OEH. With the climate changing & heading into more heat stress for our Flying Fox this would be detrimental to the outcome of this species if not regulated.

- I feel that OEH does not do enough to help our Flying Foxes. There should be fines in place for harrassment & OEH needs to follow thru.
