

S00111 – John Haeata

Consultation Questions

* Should all nominated shooters be listed.....

Suggest the Landholder or their Manager be responsible to engage registered licence holders as shooter/s to

carry out the task

The Landholder/Manager is responsible for the daily running of the property and responsible to the terms and

conditions of their Licence

Reducing costs

* The printing cost of the 'placement tags' may be removed in favour of a 'return report sheet' by the Landholder/

Manager issued with Licence

Placing of 'tags' on animals shot on open plains is reasonable however there are other elements to consider with terrain hills, rocks, scrub, heavy timber, swamps etc that make the functions of tag placement impractical and time consuming

Reduction in costs

* The information contained on Council Rates Notice should suffice in submitting details of land occupation without the inclusion of personal details

* Each Licence granted to the landholder is given a (CW2018069 sample) Could not this reference be used only

when re-applying for additional Licence provided the Landholder remains as Title Holder

Submitted for information and consideration
