

S00094 – Robert Cliff

microchipping of any bird has risks,just another expence,just more money for the vets,weighing the bird and recording it's length?for what purpose?who benefits?not the bird?,we don't need more useless record keeping,the e/record book is bad enough,it wont let me enter my detai ls now so I haven't done it,what do you do with all the records you have now?it is more waste of time for us and you as well."m sure you have better things to spend our money on.
