### Proposed changes to wildlife licensing

The NSW Pheasant and Waterfowl Society contend that the nine (9) waterfowl species listed below in the NSW Native Animal Keepers' Species List, should be removed and placed on the 'exempt from licence requirements' on the following grounds:

- None of these species are on the 'Threatened Species' list
- They are all reasonably common in interstate avicultural collections
- There is possibly a current low level of compliance with licensing by keepers of these birds due to their commonality

List of birds – All Waterfowl – All current class B2 and proposed B2 classification.
