DRAFT GOVERNMENT BILL

Coastal Management Bill 2015

Explanatory note

Overview of Bill

The object of this Bill is to provide for the integrated management of the coastal environment of New South Wales consistent with the principles of ecologically sustainable development for the social, cultural and economic well-being of the people of the State.

The Bill consequently repeals the *Coastal Protection Act 1979* and the *Coastal Protection Regulation 2011*.

Outline of provisions

Part 1 Preliminary

Clause 1 sets out the name (also called the short title) of the proposed Act.

Clause 2 provides for the commencement of the proposed Act on a day or days to be appointed by proclamation.

Clause 3 states the objects of the proposed Act.

Clause 4 defines certain words and expressions used in the proposed Act.

Part 2 Coastal zone and management objectives for coastal management areas

Clause 5 provides that the coastal zone means the area of land comprised of a number of coastal management areas, being:

- (a) the coastal wetlands and littoral rainforests area, and

- (b) the coastal vulnerability area, and
- (c) the coastal environment area, and
- (d) the coastal use area.

Clause 6 defines the coastal wetlands and littoral rainforests area, being the land identified by a State environmental planning policy to be the coastal wetlands and littoral rainforests area, being land which displays the hydrological and floristic characteristics of coastal wetlands or littoral rainforests and land adjoining those features, and sets out the management objectives for the area.

Clause 7 defines the coastal vulnerability area, being the land identified by a State environmental planning policy to be the coastal vulnerability area, being land subject to coastal hazards, and sets out the management objectives for the area.

Clause 8 defines the coastal environment area, being the land identified by a State environmental planning policy to be the coastal environment area, being land containing coastal features such as the coastal waters of the State, estuaries, coastal lakes, coastal lagoons and land adjoining those features, including headlands and rock platforms, and sets out the management objectives for the area.

Clause 9 defines the coastal use area, being the land identified by a State environmental planning policy to be the coastal use area, being land adjacent to coastal waters, estuaries, coastal lakes and lagoons where development is or may be carried out (at present or in the future), and sets out the management objectives for the area.

Clause 10 contains provisions relating to identification of coastal management areas including requiring environmental planning instruments under the *Environmental Planning and Assessment Act 1979* that identify a coastal management area (or part of such an area) not be made except on the recommendation of the Minister administering the proposed Act (*the Minister*) and dealing with situations where the same parcel of land is shown by such environmental planning instruments to be within different coastal management areas.

Part 3 Coastal management programs and coastal management manual

Division 1 Application of Part

Clause 11 provides that the proposed Part applies to:

- (a) a local council whose local government area, or part of whose local government area, is included within the coastal zone, and
- (b) any other public authority that exercises functions in connection with the coastal zone.

Division 2 Coastal management programs

Clause 12 sets out the purpose of coastal management programs, being to set the long-term strategy for the co-ordinated management of land within the coastal zone with a focus on achieving the objects of this Act.

Clause 13 provides that a local council may, and must, if directed to do so by the Minister, prepare a coastal management program in accordance with this Part. A coastal management program may be made in relation to the whole, or any part, of the area included within the coastal zone.

Clause 14 deals with the preparation of coastal management programs. A local council is to prepare a coastal management program in accordance with the coastal management manual (see below). In preparing a coastal management program, a local council must:

- (a) consider and promote the objects of the proposed Act, and
- (b) give effect to the management objectives for the coastal management areas covered by the program, and

- (c) consider the State and regional policies and plans prescribed by the regulations for the purposes of this proposed section.

The Minister may also direct a local council in its preparation of a coastal management program. Such a direction prevails to the extent of any inconsistency between it and the coastal management manual.

Clause 15 sets out matters to be dealt with in coastal management programs. A coastal management program must:

- (a) identify the coastal management issues affecting the areas to which the program is to apply, which in a coastal vulnerability area must include existing and potential risks to development and human life associated with coastal hazards, and
- (b) identify the actions required to address those coastal management issues in an integrated and strategic manner, which in a coastal vulnerability area must include actions for avoiding, managing or reducing risks from coastal hazards, and
- (c) identify how and when those actions are to be implemented, including those to be implemented by local councils under Chapter 13 of the *Local Government Act 1993*, those to be implemented under environmental planning instruments and development control plans under the *Environmental Planning and Assessment Act 1979* and those to be implemented by public authorities (other than the local council), and
- (d) identify the costs of those actions and proposed cost-sharing arrangements and other viable funding mechanisms for those actions to ensure the delivery of those actions is consistent with the timing for their implementation under the coastal management program, and
- (e) if the local council has land identified as a coastal vulnerability area within its local government area and beach erosion is occurring on that land, a coastal erosion emergency action subplan for the area.

Clause 16 contains provisions dealing with the consultation that must be undertaken before a coastal management program is adopted.

Clause 17 provides for the certification and adoption of coastal management programs. A local council may, after the Minister has certified that a draft coastal management program has been prepared in accordance with the requirements of the proposed Part and the coastal management manual, adopt the coastal management program and publish it in the Gazette. A coastal management program takes effect on the date on which it is published in the Gazette or, if a later date is specified in the plan for its commencement, on the later date so specified.

Clause 18 deals with the review, amendment and replacement of coastal management programs.

Clause 19 provides that a copy of a coastal management program must be available for inspection by the public without charge at the office of the local council during ordinary office hours. A copy of a coastal management program must also be available for public inspection on the website of the local council within 7 days of its publication in the Gazette.

Clause 20 provides that the Minister may prepare and adopt a coastal management program for a local council if:

- (a) the local council has failed to comply with a direction under the proposed Part, or
- (b) the Minister has refused to certify the local council's draft coastal management program under proposed section 17.

The proposed section contains other provisions dealing with the preparation and adoption of such coastal management programs, including requiring the Minister to seek the advice of the NSW Coastal Council in carrying out this function.

Division 3 Coastal management manual

Clause 21 provides that the Minister is to publish a coastal management manual (*coastal management manual*) for the purposes of this proposed Act. The manual is to impose mandatory

requirements and provide guidance in connection with the preparation, development, adoption, amendment, and review of, and the contents of, coastal management programs.

In particular, the manual is to include the following:

- (a) information to assist local councils addressing the requirements for the preparation of coastal management programs,
- (b) a risk management process that local councils are to follow when preparing their coastal management programs, including a process of identifying and assessing risks to environmental, social and economic values and benefits and evaluating and selecting management actions to address those risks,
- (c) technical information and guidance on matters such as hazard mapping, ecological health, cost benefit analysis and implementation and funding tools to support local councils in undertaking that process,
- (d) requirements relating to the consultation that must be undertaken in connection with the preparation, development or review of coastal management programs,
- (e) information on the preparation of coastal erosion emergency action subplans,
- (f) information on the role of the Minister, public authorities and the NSW Coastal Council in relation to the preparation, development and review of coastal management programs,
- (g) guidance regarding the local council's integration of its coastal management program with its integrated planning and reporting framework obligations under the *Local Government Act 1993*.

Division 4 Obligations of local councils and other public authorities

Clause 22 deals with the implementation of coastal management programs.

A local council is to give effect to its coastal management program and, in doing so, have regard to the objects of this proposed Act in the exercise of its functions and, in particular, its functions relating to:

- (a) the preparation, development and review of, and the contents of, the plans, strategies, programs and reports to which Part 2 of Chapter 13 of the *Local Government Act 1993* applies, and
- (b) the preparation of planning proposals and development control plans under the *Environmental Planning and Assessment Act 1979*.

Clause 23 requires other public authorities (other than local councils) to have regard to coastal management programs to the extent that those programs are relevant to the exercise of their functions. In particular, those public authorities are to have regard to relevant coastal management programs and the coastal management manual in the preparation, development and review of, and the contents of, any plans of management that those public authorities are required to produce and, in doing so, are to have regard to the objects of the Act.

Part 4 NSW Coastal Council

Clause 24 provides for the establishment of a NSW Coastal Council. The NSW Coastal Council is to consist of at least 3 and not more than 7 members appointed by the Minister. The provision deals with the appointment of members to the Council. **Schedule 2** deals with the constitution and procedure of the NSW Coastal Council.

Clause 25 sets out the functions of NSW Coastal Council, including:

- (a) to provide advice to the Minister on any matter referred to the Council by the Minister relating to the following:
 - (i) the Minister's functions under this Act,
 - (ii) the compliance by local councils with management objectives and the coastal management manual in preparing and reviewing coastal management programs,

- (iii) performance audits of local councils' coastal management programs, and
- (b) at the request of the Minister, to provide advice to another public authority on any matter referred to the Council by the Minister relating to coastal management issues, and
- (c) any other function conferred or imposed on it by or under this proposed Act.

Clause 26 provides that the NSW Coastal Council, at the request of the Minister, is to conduct a performance audit of the implementation of a coastal management program of a local council. The purpose of the performance audit is:

- (a) to determine whether a local council is effectively implementing its coastal management program, and
- (b) to identify opportunities for local council capacity building.

Part 5 Miscellaneous

Clause 27 provides that development consent must not be granted under the *Environmental Planning and Assessment Act 1979* to development for the purpose of coastal protection works, unless the consent authority is satisfied that the works will not, over the life of the works:

- (a) unreasonably limit or be likely to unreasonably limit public access to or the use of a beach or headland, or
- (b) pose or be likely to pose a threat to public safety.

The proposed section is substantially the same as section 55M (1) of the *Coastal Protection Act 1979* (which is to be repealed by this proposed Act).

Clause 28 deals with the modification of the common law doctrine of erosion and accretion in the same manner as section 55N of the *Coastal Protection Act 1979* (which is to be repealed by this proposed Act).

Clause 29 protects the exercise of certain functions by local councils and other public authorities from legal invalidity and clarifies that this Act does not require or authorise action that is inconsistent with any statutory or other legal obligation of the authority.

Clause 30 deals with failures by local councils to comply with Ministerial directions under proposed sections 13 (1) and 14 (2).

Clause 31 enables the Governor to make regulations for the purposes of the proposed Act.

Clause 32 enables the Minister to delegate the exercise of any function of the Minister under this proposed Act (other than this power of delegation) to certain persons or bodies.

Clause 33 provides for the review of the proposed Act in 5 years.

10 Matters relating to identification of coastal management areas

(1) LEPs may amend SEPPs to identify coastal management areas

For the avoidance of doubt, a local environmental plan under the *Environmental Planning and Assessment Act 1979* may amend a State environmental planning policy under that Act to identify a coastal management area (or part of such an area) for the purposes of this Act.

(2) Recommendation of Minister required

A provision of an environmental planning instrument under the *Environmental Planning and Assessment Act 1979* that identifies a coastal management area (or part of such an area) for the purposes of this Act must not be made without the recommendation of the Minister administering this Act.

(3) Hierarchy of management objectives if overlapping

A single parcel of land may be identified by a State environmental planning policy as being within different coastal management areas. However, in such a case, if the management objectives of the areas are inconsistent, the management objectives of the highest of the following coastal management areas (set out highest to lowest) prevails to the extent of the inconsistency:

- (a) the coastal wetlands and littoral rainforests area,
- (b) the coastal vulnerability area,
- (c) the coastal environment area,
- (d) the coastal use area.

Part 3 Coastal management programs and manual

Division 1 Application of Part

11 Part applies to local councils with land within coastal zone

This Part applies to:

- (a) a local council whose local government area, or part of whose local government area, is included within the coastal zone, and
- (b) any other public authority that exercises functions in connection with the coastal zone.

Division 2 Coastal management programs

12 Purpose of coastal management programs

The purpose of a coastal management program is to set the long-term strategy for the co-ordinated management of land within the coastal zone with a focus on achieving the objects of this Act.

13 Requirement for coastal management programs

- (1) A local council may, and must, if directed to do so by the Minister, prepare a coastal management program in accordance with this Part.
Note. See sections 20 and 30 regarding a failure of the local council to comply with a direction of the Minister.

- (3) A direction under this section may specify the time within which the direction must be complied with.

14 Preparation of coastal management program

- (1) A local council is to prepare a coastal management program in accordance with the coastal management manual.
- (2) The Minister may, by notice in writing given to a local council, direct the local council in its preparation of a coastal management program. A direction under this subsection prevails to the extent of any inconsistency between it and the coastal management manual.
Note. See sections 20 and 30 regarding a failure of the local council to comply with a direction of the Minister.
- (3) In preparing a coastal management program, a local council must:
 - (a) consider and promote the objects of this Act, and
 - (b) give effect to the management objectives for the coastal management areas covered by the program, and
 - (c) consider the State and regional policies and plans prescribed by the regulations for the purposes of this section.
- (4) A direction under this section may specify the time within which the direction must be complied with.

15 Matters to be dealt with in coastal management program

 - (c) identify how and when those actions are to be implemented, including those to be implemented by local councils under Chapter 13 of the *Local Government Act 1993*, those to be implemented under environmental planning instruments and development control plans under the *Environmental Planning and Assessment Act 1979* and those to be implemented by public authorities (other than the local council), and
 - (d) identify the costs of those actions and proposed cost-sharing arrangements and other viable funding mechanisms for those actions to ensure the delivery of those actions is consistent with the timing for their implementation under the coastal management program, and
 - (e) if the local council has land identified as a coastal vulnerability area within its local government area and beach erosion is occurring on that land, a coastal erosion emergency action subplan.
- (2) A coastal management program may also include other matters as may be authorised or permitted by the coastal management manual.
- (3) A **coastal erosion emergency action subplan** is a plan that outlines the roles and responsibilities of all public authorities (including the local council) in response to emergencies immediately preceding or during periods of beach erosion, where the beach erosion occurs through storm activity or an extreme or irregular event, including the carrying out of works for the protection of property affected or likely to be affected by beach erosion.
- (4) A coastal management program must not include the following:
- (a) matters dealt with in any plan made under the *State Emergency and Rescue Management Act 1989* in relation to the response to emergencies,

- (a) the community, and
 - (b) if the local council's local government area contains land within the coastal vulnerability area, any local council whose local government area contains land within the same coastal sediment compartment (as specified in Schedule 1), and
 - (c) other public authorities if the coastal management program:
 - (i) proposes actions or activities to be carried out by that public authority, or
 - (ii) proposes specific emergency actions or activities to be carried out by a public authority under the coastal erosion emergency action subplan, or

- (iii) relates to, affects or impacts on any land or assets owned or managed by that public authority.
- (2) Consultation under this section is to be undertaken in accordance with the relevant provisions of the coastal management manual.
- (3) A failure to comply with this section does not invalidate a coastal management program.
- (4) The regulations may amend Schedule 1.

17 Certification, adoption and gazettal of coastal management program

- (1) A local council may submit a draft coastal management program to the Minister for certification under this section.
- (2) The Minister may certify, or refuse to certify, that the draft coastal management program submitted to the Minister has been prepared in accordance with the requirements of this Part and the coastal management manual.
- (3) A local council may, after the coastal management program has been certified, adopt the coastal management program and publish it in the Gazette.
- (4) A coastal management program takes effect on the date on which it is published in the Gazette or, if a later date is specified in the plan for its commencement, on the later date so specified.

Note. Section 733 (2) of the *Local Government Act 1993* provides that a local council does not incur any liability in respect of:

- (a) any advice furnished in good faith by the council relating to the likelihood of any land in the coastal zone being affected by a coastline hazard (as described in the coastal management manual) or the nature or extent of any such hazard, or
- (b) anything done or omitted to be done in good faith by the council in so far as it relates to the likelihood of land being so affected.

Also, section 733 (4) (b) provides that a council is, unless the contrary is proved, taken to have acted in good faith for the purposes of this section if the advice was furnished, or the thing was done or omitted to be done in accordance with the principles and mandatory requirements set out in the coastal management manual.
