Conservation (NSW)

PESTICIDES: Example record keeping form

Note: It is not compulsory to use this format. This example form was developed to assist the market gardeners in the Sydney basin. For further information, see the guidance brochure on record keeping.

If you use a short name for something in filling out this form, you must write the full name somewhere else such as a book or farm diary.

Pesticides Application Record Sheet										
Record the name, address and contact details of the owner or occupier of the land where pesticide was applied:										
Date, start and finish time	Operator details	Crop or place where pesticide was applied	Type of equipment used	Name of pesticide used	Amount of concentrated product used	Total quantity applied	Size of block sprayed	Order blocks were treated	Estimated wind speed and direction	Other weather details
	<i>Name, address and contact details</i>	<i>Also record spraying of fallow land and any pesticides used in and around crops*</i>		<i>Record all the pesticides you used.</i>	<i>If you mixed two pesticides together, you can record both on the same form.</i>	<i>Total amount of water, oil or other things mixed with the concentrated product.</i>	<i>Refer to your farm map**</i>	<i>Write which block was sprayed first, second, third, etc.</i>	<i>If these conditions change significantly during spraying then also record the changes.</i>	<i>Only if they are specified on the label or National Registration Authority (NRA) permit.</i>
									Speed	Direction

Records must be in English

* It is not compulsory to record the pest or disease but it is recommended as part of good operating practices.

** A farm map is recommended because it would make recording this information easier.
