Dear Mr

RE: Section 95 Certificate to clear individual dead paddock trees and stumps

I refer to your Section 91 licence application received by the Department of Environment, Climate Change and Water (DECCW) on 02-Feb-2010 to clear individual dead paddock trees and stumps.

I have assessed your licence application in accordance with the provisions of the *Threatened Species Conservation Act* 1995 (TSC Act) and concluded that the proposal is unlikely to have a significant impact on threatened species, endangered populations or endangered ecological communities. The TSC Act makes provision for the issue of a certificate under section 95(2) for actions which technically constitute damage to the habitat of threatened species, but which are unlikely to have a significant impact. Accordingly, I have decided to authorise your activities and issue you with a Section 95(2) certificate.

If you have any further questions in relation to this matter, please contact Matt Cameron on (02) 6022 0605.

Yours sincerely

.....
Mr Brian Wild
Head Regional Operations Unit
South - Albury

Issued To:

Certificate no. : 1111444
Issue Date: 12-Feb-2010
Expiry date: 30 April 2010

I certify that the clearing of individual dead paddock trees and stumps as described your Section 91 application, is unlikely to significantly affect threatened species, populations, ecological communities or their habitats and consequently the proposal does not require a licence under the *Threatened Species Conservation Act, 1995* pursuant to Section 95(2).

This certificate is a defence against prosecution under sections 118A-D of the *National Parks and Wildlife Act 1974*.
